

Anant Patel

Backend Developer

patel.anant2001@gmail.com — +91-6392884809 — LinkedIn

Professional Summary

Backend Developer with nearly 3 years of experience designing and developing scalable **microservices** and enterprise applications using **Java**, **Spring Boot**, **Apache Spark**, and **PostgreSQL**. Skilled in building **RESTful APIs**, optimizing database performance, implementing distributed data pipelines, and delivering production-grade solutions in **Agile** environments.

Skills

Languages: Java, SQL, C++, C

Backend: Spring Boot, Spring Security, JWT, Hibernate/JPA, REST APIs, Microservices

Big Data: Apache Spark, Apache Airflow

Messaging: Apache Kafka

Databases: PostgreSQL, MySQL

Testing: JUnit, Mockito

Tools: Git, Bitbucket, Jira, Maven, Gradle, Docker

Work Experience

Senior Software Engineer

Sep 2023 – Present

GlobalLogic

- Developed and maintained backend services and **microservices** using **Java** and **Spring Boot** for a large-scale retail allowance management platform.
- Implemented a **token-based authentication** mechanism for **Apache Airflow** integrations, replacing legacy Basic Authentication and improving security compliance.
- Collaborated with business stakeholders and cross-functional teams to gather requirements and deliver new features across multiple releases.
- Investigated production incidents, performed **root cause analysis**, and implemented fixes to ensure system stability and availability.
- Participated in **Agile/Scrum** ceremonies including sprint planning, estimation, backlog refinement, and retrospectives.
- Developed unit tests using **JUnit** and **Mockito** to improve code reliability and maintainability.
- Supported application deployments and release activities by collaborating with QA and DevOps teams to ensure smooth production rollouts.

Software Engineer Intern

Feb 2023 – Jun 2023

GlobalLogic

- Completed industrial-level training in Java and backend development.
- Worked on recommendation system development within the delivery unit.

Projects

Enterprise Vendor Allowance System

Java, Spring Boot, Spring Data JPA, Apache Spark, Apache Airflow, PostgreSQL, JUnit, Mockito

- Designed and developed **RESTful APIs** for vendor allowance, accrual, and earnings processing workflows.
- Implemented business rules and financial calculations using **Spring Boot** and **Spring Data JPA**.
- Developed **Apache Spark** jobs for large-scale retail sales data processing and allowance calculations.
- Built and maintained **Apache Airflow DAGs** for workflow orchestration and job scheduling.
- Optimized **PostgreSQL** queries and database interactions to improve application performance.
- Integrated external systems and downstream services through secure API-based communication.

Payment Gateway Integration

HTML, CSS, JavaScript, Razorpay API

- Built a donation platform with secure online payment processing.
- Integrated Razorpay API for handling multiple payment methods.

Education

B.Tech in Information Technology

CGPA: 8.8/10

AKGEC, Ghaziabad

2023

Achievements

- **Shining Star Award** – Recognized for exceptional delivery and production support.
- **Spotlight of the Month Award** – April 2025.
- Ranked **40th** in CodeChef April Long Challenge (19,211 participants).
- Achieved a **4-Star CodeChef rating** (Max Rating: 1902).
